The 7th Australian Stream Management Conference 'From Catchment to Coast' will be held in Townsville in July 2014.

The 7th Australian Stream Management Conference – 'Catchment to Coast' - will be held in Townsville in July 2014. The conference is being convened by the Catchments Australia Foundation in association with the River Basin Management Society. The conference will provide the opportunity to discuss both recent developments and long term experiences in stream management, including the role of physical interventions and management, catchment and riparian management, environmental flows, community expectations from stream systems, drought and flood recovery policy and monitoring and evaluation programs.

This year we are able to offer a range of opportunities to enable your organisation to be part of the event, showing support for the conference and promoting your organisations' products/services.

These include a number of Supporter levels, company supported sessions, Meet-The-Expert sessions and various advertising opportunities. All morning & afternoon teas and lunches will be served in the exhibition area.

Based on past history, the meeting expects to attract well over 250 delegates, allowing you to:

- Build new and strengthen existing relationships
- Increase brand awareness or organisational profile
- Acquire instant feedback
- Obtain first-hand knowledge of developments in your industry
- Create prospective databases and direct sales leads

Opportunities for participation at the 7th Australian Stream Management Conference 2014 exist through support and advertising. The products are detailed on the following pages.

To participate, please complete the application form on the last page and fax or email back to ASN. Exhibition sites will be allocated in order of receipt of applications. If you have any questions or would like to discuss the options further, please do not hesitate to contact me.
